01/04/2023	01/05/2023	Pap test, thinprep, imaged and HPV high risk	HPV 16	negative						Amber Terry	Clinical Pathology Laboratories - Main Lab (Blood Not Drawn At This Location) , Visit Cplabs.Com For Location Nearest You , Austin , TX , 78754, US , (800) 633-4757	01/10/2023 12:44:01
01/04/2023	01/05/2023	Pap test, thinprep, imaged and HPV high risk	HPV 18	negative						Amber Terry	Clinical Pathology Laboratories - Main Lab (Blood Not Drawn At This Location) , Visit Cplabs.Com For Location Nearest You , Austin , TX , 78754, US , (800) 633-4757	01/10/2023 12:44:01
01/04/2023	01/05/2023	Pap test, thinprep, imaged and HPV high risk	HPV, HR, other genotypes	negative					Testing methodology is real-time PCR utilizing hydrolysis probes with the Roche Cobas 4800 system. The test individually detects genotypes 16 and 18, as well as the other 12 high risk types (31,33,35,39,45,51,52,56,58,59,66,68). The expected result is negative. A negative result does not rule out the presence of HPV not included in the genotype set, a low level of infection or specimen sampling error. Testing Performed At: Clinical Pathology Laboratories, Inc. 9200 Wall St., Austin, TX 78754 Laboratory Director: Mark A. Silberman, M.D. CLIA Number 45D0505003 CAP Accreditation No. 21525-01	Amber Terry	Clinical Pathology Laboratories - Main Lab (Blood Not Drawn At This Location) , Visit Cplabs.Com For Location Nearest You , Austin , TX , 78754, US , (800) 633-4757	01/10/2023 12:44:01
